Annual report CAA-UK chapter 2018

Chair: James Miles
Secretary: Victoria Donnelly
Treasurer: Catriona Cooper

For 2018 the annual CAA-UK conference was moved from its usual March date to October to try to increase our numbers, which was stood at circa 40 people at our 2017 conference.

The 2018 conference was organised by Doug Rocks-Macqueen in Edinburgh and saw 131 people attend. We were able to support two AGMs for external organisations: one for a special interest group for the Charted Institute for Archaeologist; and the second for the Forum on Information Standards in Heritage (FISH). This association will continue in 2019 where our next conference will be at Bournemouth University who are partnering with the BFX, Bournemouth's Visual Effects, Animation and Games Festival, which is the largest visual effects conference in the country.

2019 will be the last conference that James will chair, as he will be stepping down, with hope that someone wanting to become more involved in CAA will run for the position.
